# GENESIS No-Till Drill

# GENESIS 3-UTV

# #PlantYourLegacy

In the beginning, there was Genesis—the no-till drill that changed food plots forever. Built tough to handle the most challenging soil conditions, the Genesis is designed to make planting easier, faster, and more effective.

Here's how it works: tempered cutting discs spaced 7.5 inches apart slice into the soil, creating precise slits where seeds are planted. Behind the discs, solid rubber packing wheels seal the slits, delivering unmatched seed-to-soil contact—even through standing vegetation. The Genesis ensures your seeds stay protected from erosion, wildlife, and waste; for better germination & healthier food plots.

With a simple, accurate calibration system, the Genesis handles everything from small seeds to blends without needing extra seed boxes or complex adjustments. This means you can plant the right way the first time, saving time, money, and effort.

The Genesis was the first no-till drill built specifically for food plots. Others may try to imitate, but there's only one original. Plant it right from the beginning—with Genesis.

# GENESIS 5

GENESIS	3-UTV	3	5	8
Working Width	37.5"		60"	90"
Working Depth	0.5" - 2.0"			
Seeding Speed	Up to 3 MPH			
Weight	1,188 lbs		1,819 lbs	2,670 lbs
Seeding Row Distance	7.5"			
Cutting Elements	5		8	13
Seed-Tray Capacity	4.9 Bushels		8 Bushels	11.5 Bushels
Hitch Type	Clevis Hitch		Three-Point CAT 1-2	
Dimensions L x W x H	100" x 79" x 56"	46" x 53" x 51"	46" x 74" x 49"	46" x 104" x 49"
Recommended Tractor Size	Min. 800cc UTV and 1,000 lbs payload capacity	30HP w/ 1,870 lbs rear lift capacity	40HP w/ 2,400 lbs rear lift capacity	55HP w/ 3,200 lbs rear lift capacity
Optional Accessories	*Wheel Kit - for towing option. *Hydraulic Kit - if towing vehicle does not have rear hydraulics for Wheel Kit. *Front Coulters - pre-cutting discs in front of the seeding elements. *Small Seed Box - helps with planting very low seeding rates with small seeds. *Seed Box Cover Plates - used to adjust row spacing by blocking off user-selected rows. *Shallow Seed Planting Kit - allows for planting 1/4" depth
